hereinafter termed "Inventors", have invented certain new and useful improvements in

**METHOD AND APPARATUS FOR PROVIDING A VIRTUAL DISTRIBUTED GATEKEEPER IN  
AN H.323 SYSTEM**

and have filed an application for a United States patent disclosing and identifying the above invention  
13 April 1999 as Application No. 09/290,941 (hereinafter termed "application"); and

WHEREAS, 3Com Corporation, a corporation of the State of Delaware, having a place of business  
at 5400 Bayfront Plaza, Santa Clara, California 95052-8145, (hereinafter termed "Assignee"), is desirous of  
acquiring the entire right, title and interest in and to said application and the invention disclosed therein, and  
in and to all embodiments of the invention, heretofore conceived, made or discovered jointly or severally by  
said Inventors (all collectively hereinafter termed "said invention"), and in and to any and all patents,  
inventor's certificates and other forms of protection (hereinafter termed "patents") thereon granted in the  
United States and foreign countries.

NOW, THEREFORE, in consideration of good and valuable consideration acknowledged by said  
Inventors to have been received in full from said Assignee:

1. Said Inventors do hereby sell, assign, transfer and convey unto said Assignee the entire right,  
title and interest (a) in and to said application and said invention; (b) in and to all rights to apply for foreign  
patents on said invention pursuant to the International Convention for the Protection of Industrial Property or  
otherwise; (c) in and to any and all applications filed and any and all patents granted on said invention in the  
United States or any foreign country, including each and every application filed and each and every patent  
granted on any application which is a divisional, substitution, continuation, or continuation-in-part of any of  
said applications; and (d) in and to each and every reissue or extensions of any of said patents.

2. Said Inventors hereby jointly and severally covenant and agree to cooperate with said  
Assignee to enable said Assignee to enjoy to the fullest extent the right, title and interest herein conveyed in  
the United States and foreign countries. Such cooperation by said Inventors shall include prompt production  
of pertinent facts and documents, giving of testimony, execution of petitions, oaths, specifications,  
declarations or other papers, and other assistance all to the extent deemed necessary or desirable by said  
Assignee (a) for perfecting in said Assignee the right, title and interest herein conveyed; (b) for prosecuting  
any of said applications; (c) for filing and prosecuting substitute, divisional, continuing or additional  
applications covering said invention; (d) for filing and prosecuting applications for reissuance of any said  
patents; (e) for interference or other priority proceedings involving said invention; and (f) for legal  
proceedings involving said invention and any applications therefor and any patents granted thereon, including

without limitation reissues and reexaminations, opposition proceedings, cancellation proceedings, priority contests, public use proceedings, infringement actions and court actions; provided, however, that the expense incurred by said Inventors in providing such cooperation shall be paid for by said Assignee.

3. The terms and covenants of this assignment shall inure to the benefit of said Assignee, its successors, assigns and other legal representatives, and shall be binding upon said Inventors, their respective heirs, legal representatives and assigns.

4. Said Inventors hereby jointly and severally warrant and represent that they have not entered and will not enter into any assignment, contract, or understanding in conflict herewith.

IN WITNESS WHEREOF, said Inventors have executed and delivered this instrument to said Assignee as of the dates written below.
